

As a taxpayer, I am very concerned when public airwaves are allowed to be used for such blatant uses as the Sinclair Broadcast Group is planning on doing. There is a line drawn between objective journalism and out and out propaganda. Their needs to be more care taken in granting companies media ownership. Our country doesn't need any more polarization than it has right now. Raising the rhetoric in such an unfair setting such as the anti-Kerry movie does not help.

Sincerely,
Donna Machina
